

## **GREEN PEAK INNOVATIONS HOSTING OCTOBER 11 CANNABIS CAREER FAIR IN BATH TOWNSHIP**

*Leading cannabis company hiring for all positions—cultivating, processing and provisioning*

LANSING, MI —Sept. 28 2018—Professionals interested in joining the state’s newest and most exciting industry, medical cannabis, should come to the October 11 Cannabis Career Fair at Eagle Eye Golf Club, 15500 Chandler Road in Bath Township. The event, hosted by Green Peak Innovations (GPI), is from 10 a.m. to 7 p.m.

“The GPI team is a diverse group of professionals united behind one simple goal: to create a premium seed-to-store operation in Michigan that patients can trust to consistently supply the highest quality medical cannabis products,” said GPI CEO Jeff Radway.

“These are good jobs,” added Radway. “GPI is offering excellent salaries and benefits to high-caliber individuals who are passionate about serving the needs of Michigan’s patients in our growing company. People are going to love working on the GPI team.

Lansing-based Green Peak Innovations is pre-qualified for large scale medical cannabis licenses for cultivation, processing and provisioning centers (retail). In order to be the state’s premiere

cannabis company, Green Peak Innovations is looking to fill 50-100 positions in the next 60 days and 200 total positions in the next year.

“We expect our final licenses to be issued in the next few weeks,” said Radway. “We need to fill some critical positions now so we can meet the demand. We are encouraging people to come meet us and learn about our exciting company on October 11.”

Green Peak Innovations received pre-qualification in July from the LARA Bureau of Medical Marihuana Regulation. They are seeking 12 class C cultivation licenses, one processor license and 19 provisioning center licenses.

GPI is currently under construction on its main headquarters and production facility located on 25 acres in Harvest Park, a medical cannabis industrial park in Windsor Township, and an R&D facility in Lansing, with both facilities scheduled for completion soon. Additionally, GPI owns several properties for provisioning center locations that will launch late 2018 and is acquiring more property throughout Michigan to deploy its pre-qualified provisioning center licenses.

Candidates should be prepared for short initial interviews on site at the Oct. 11 Cannabis Career Fair. For a complete list of job openings, visit [greenpeakinnovations.com](http://greenpeakinnovations.com).

### **ABOUT GREEN PEAK INNOVATIONS**

Green Peak Innovations uses nature, science and agricultural best practices to raise cannabis industry standards. We’re building state-of-the-art facilities and using advanced technology to cultivate high-quality medicine that is safe for our patients, our communities and our state. Green Peak Innovations’ Global Headquarters will be located in Windsor Township, Michigan, and will be led by CEO Jeff Radway.
